

Deploying Solidity contract to the Solana blockchain using Neon

Ivan Loboda, developer Telegram: @Lobodets
Mail: loboda.i.y@yandex.ru

Repository

<https://github.com/neonlabsorg/examples>

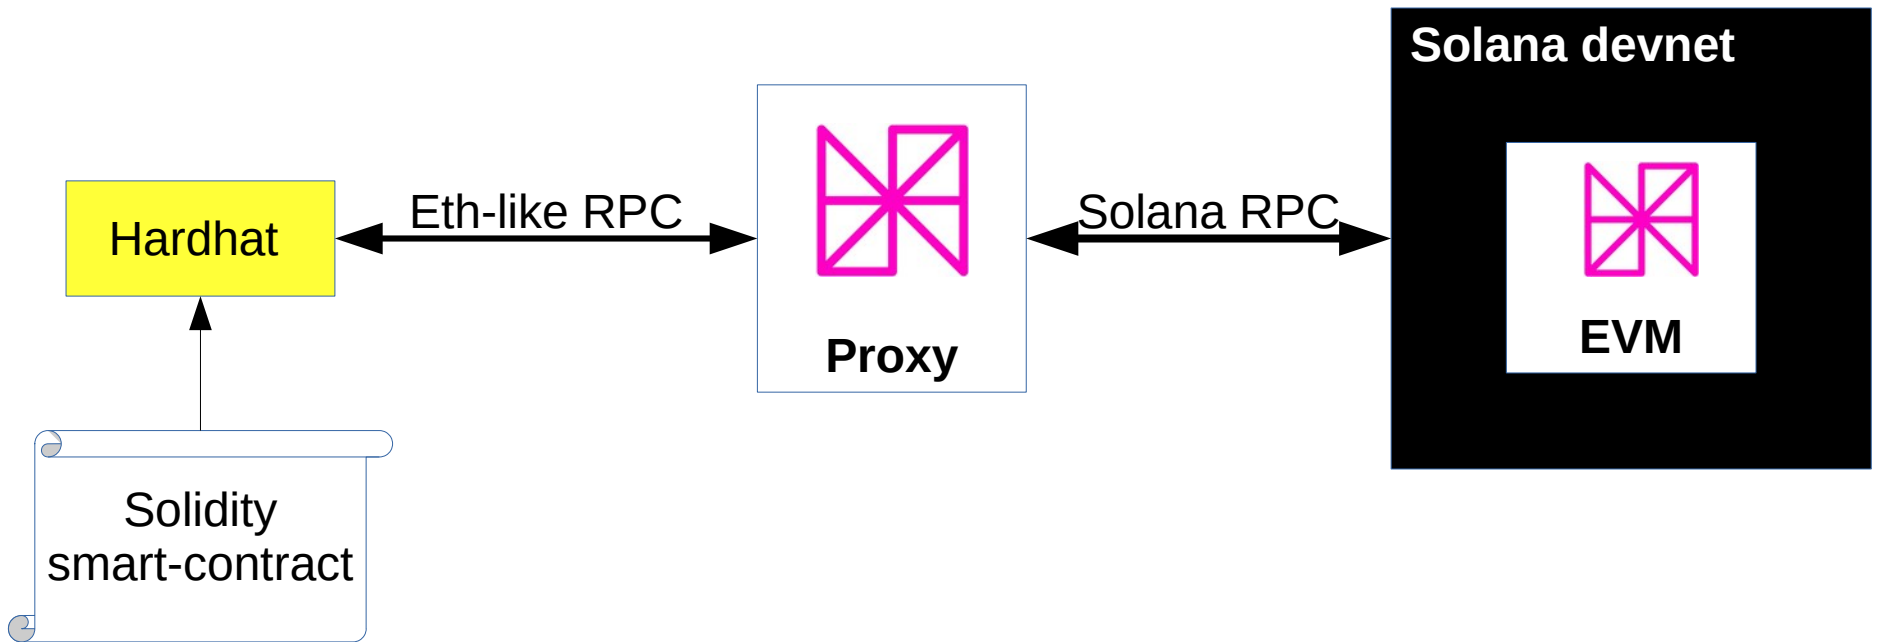

Directory: simple-erc20

Instruments

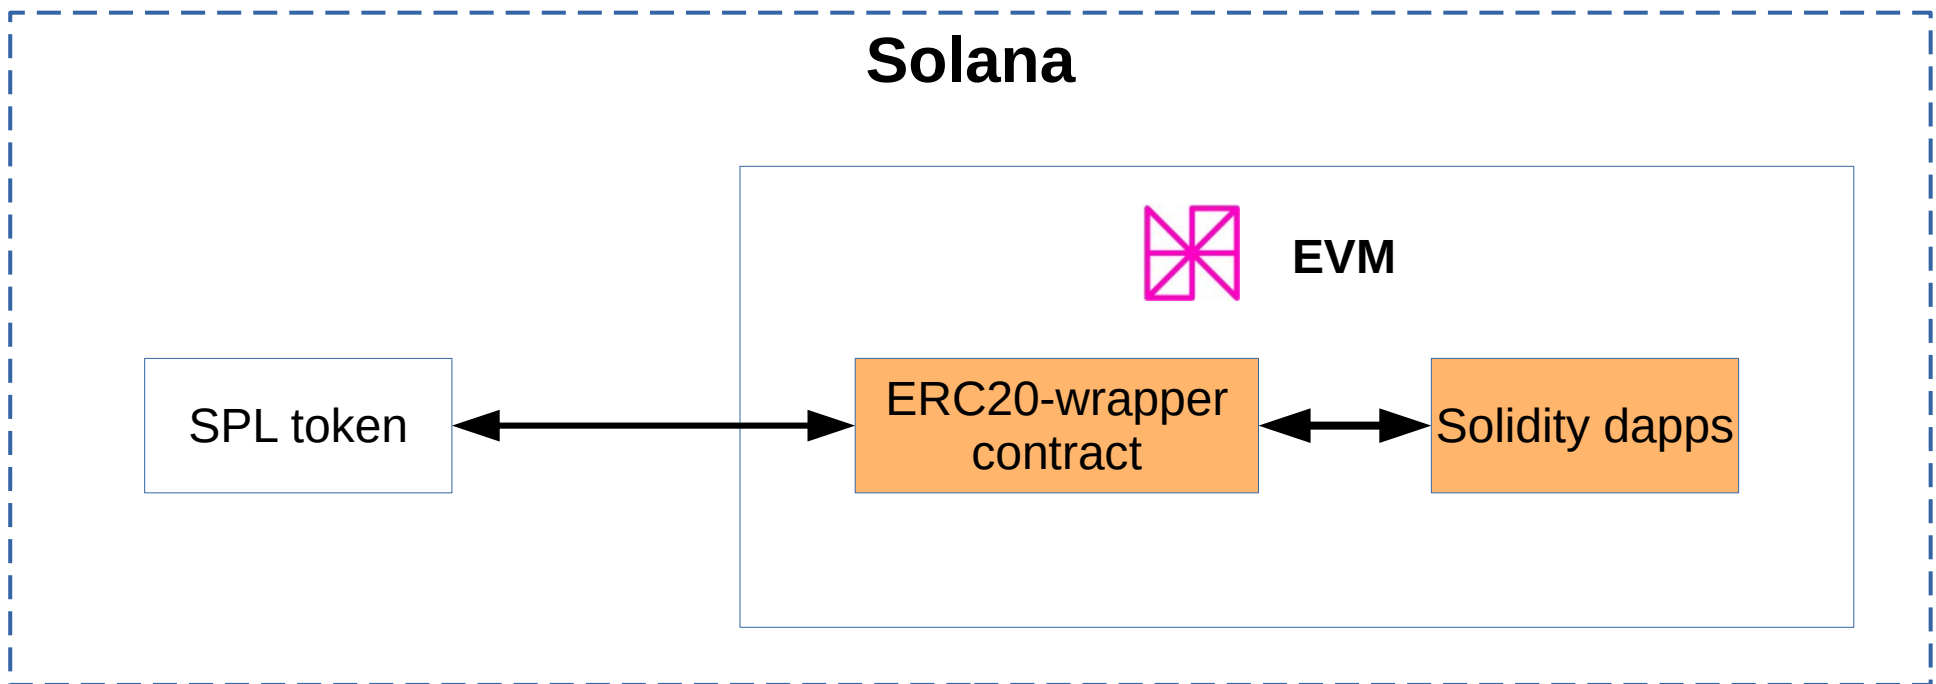

- MetaMask (except Firefox ver.)
- JavaScript
- Hardhat

How it works

Further learning

- Try to reproduce steps from example directory **spl-erc20-wrapper**

Thank you for attention
